

MOTOMING™ A1600

For the multi-tasking consumer, the touch-screen PDA, MOTOMING A1600, offers access to email, messaging and browsing in a user-friendly and stylish design. The full touch screen simulates a traditional keypad — to deliver users a familiar experience, while a simplified user interface offers one-handed access to the most frequently used applications. Bluetooth 2.0 allows for simple pairing with enabled accessories, while also enhancing A1600’s download speed and improving battery life.¹

Capture Information, Quickly

A1600 comes equipped with a business card reader, for the easy and fast capture of important contact information. a talking dictionary recognizes the words, even pronouncing them aloud with a human voice, then displays a translation in the user’s native language. For frequent international travelers this tool helps eliminate difficult communication barriers.

With a 3 megapixel camera, A1600 makes it easy for travelers to capture the sights and share their experiences. Advanced camera functionality provides the necessary tools to snap, save and send pictures in an instant.² Even capture panoramic pictures across more than around 270 degrees with a feature that pieces together multiple shots taken across a horizon. External removable memory supported by MicroSD card up to 4G.

It’s About the Journey, Not Just the Destination

With Internet access and AGPS support for turn-by-turn navigation, A1600 helps consumers find new destinations or just the easiest routes between meetings or social events.² A1600 has support for both driving and walking directions, and consumers can use cross streets or even landmark buildings as a destination, when an exact address is not known.

Meeting someone? Users can share their current location via SMS or MMS, even mark their exact location on a map. While waiting, they can entertain themselves by playing the preloaded mobile games.
