

THE MOTOROLA A630

Bringing you the connectivity tools you demand and the style sophistication you crave, the Motorola A630 breaks into the mobile scene with an eye-catching design and powerful feature set. At first glance the sleek and ultra-compact model A630 appears to be a small candybar handset; however a closer look reveals that the device can be flipped open to reveal a full QWERTY keyboard and vivid color landscape display. This innovative design coupled with cutting-edge multi-media functionality and an integrated VGA camera promise to deliver a mobile experience unlike any other – providing easy on-the-go messaging, e-mail management and photo capabilities. Just when you think Motorola couldn't pack more into this diminutive lightweight, you're knocked out by its hands-free Bluetooth® wireless technology and tri-band capabilities, allowing you to connect with other compatible devices AND jealous friends while you travel the world on your own mobile adventure.

- **Flip It!**

Use the Motorola A630 as a sleek handset or go all out and flip it open to access the full QWERTY keyboard for quick and easy messaging. By laying the phone flat and opening the hinged front to reveal a vivid 176 x 220 pixel color display in a convenient landscape format – perfect for rapid-fire IM chatting, POP3 e-mailing or playing favorite games. Communicate with ease with the model A630, a fusion of the best of the mobile and messaging worlds without sacrificing weight, size, or most importantly, style.

- **Reveal Your Inner Shutterbug**

Putting your photo album in your palm, the Motorola A630 delivers true mobile photo magic with its huge landscape color display and VGA camera with 4x digital zoom. A dedicated photo button discretely located on the outside of the mobile allows quick point-and-shoot capabilities to ensure that you capture every experience with ease. Combine the mobile's integrated camera with its ergonomic keyboard, top it off with a sound bite and you've got killer Multi-Media Messaging Service (MMS) functionality to ensure that friends not only know, but see and hear what you're up to. For additional messaging muscle, insert an amusing image border to a photo to complete your creation.

- **Cut the Cords**

Hate to be tied down? The Motorola A630 incorporates Bluetooth wireless technology, so you can talk on the phone while it is in your pocket or bag without the hassle of wires getting in the way (*optional Bluetooth headset required*).
