Quit juggling all of your gadgets. The model A835 combines a phone, still and video cameras, video game, music and PDA capabilities in one device. Step into the future and experience high-tech, high-speed fun and games.

Up Close and Personal

The Motorola A835 is making wireless communication an intimate and full sensory experience by adding sight to sound – now you can actually see who you're talking to. Featuring videophone capabilities, the model A835 allows users to communicate using voice *and* body language with friends who have compatible phones*. Capture “can't miss” moments using the integrated camera and send them to friends' compatible phones or PCs – after all, seeing really is believing.

Passing Notes has Never Been so Fun

Using advanced messaging capabilities and 3G technology, get your thoughts across by sending extravagant messages to your friends' compatible phones or PCs that include songs, videos, pictures, ring tones or applications*. The Motorola A835 brings new meaning to staying connected!

Don't Dread Downtime

Take downtime up a notch with the model A835, providing the latest in mobile surfing, music and video capabilities. Listen to your favorite artist on the integrated MP3 player while waiting at the car wash, or use fast data speeds to take full advantage of the downloadable games and applications*, even if you're on a call. With up to 256 MB of memory, you won't have to worry about running out of space.

On the Move and in the Know

Featuring aGPS, the Motorola A835 can help you find your favorite stores or restaurants at a moment's notice. Want to be alerted if you pass a great sale at your favorite store? You've got it – the model A835 will navigate the way! And, featuring Bluetooth® wireless technology, the model A835 connects wirelessly and securely to Bluetooth enabled hands-free devices allowing for even safer communication when on the move.
