

Motorola A840

Among the first mobile phones to combine both CDMA *and* GSM technologies for global roaming, the Motorola A840 allows you to move through life — whether its Bangkok for work or Paris for play² — and never lose clean, crisp, connectivity. The revolutionary Motorola A840 underscores conventional thinking with a compact size and elegant design coupled with intuitive state of the art features such as global roaming capability², voice dialing without prerecorded voice tags, digital imaging, messaging, and enhanced multimedia applications that make life on-the-go convenient and hassle-free. Remove boundaries and cross borders with the new model A840 from Motorola.

Are you a Globetrotter?

The quad-mode Motorola A840 combines 800/1900 CDMA, CDMA 1X and 900/1800 GSM, GPRS modes with seamless network switching to give users the peace of mind that they will find the best available signal for both voice and data services². The model A840 also includes an integrated picture phonebook and calendar so you can lose bulky devices when you are on the road and consolidate all your information in this sleek clamshell handset.

Never Miss a Beat

For mobile professionals, the A840 delivers the same compelling data experience whether you're home or traveling the world². The model A840 provides the ability worldwide² to check and send e-mail, surf the Internet, download and send information, take and share pictures and play games, among many other activities¹. Dialing numbers has never been easier using the speaker independent speech recognition feature that recognizes any voice and allows you to dial by number or by contact name. The road warrior can also conduct efficient meetings while on the go with the built-in speakerphone.

Mixing Business With Pleasure

Motorola brings fashionable fun to the perfect productivity tool. This new mobile is packaged in a stylish clamshell design with an integrated MP3 player, removable TransFlash memory, oversized 2.2-inch brilliant color display, speaker-independent speech recognition, compelling gaming experience, and 1.2 megapixel integrated camera with short-range flash.
