

MOTOROLA E1000

The theory that “good things come in small packages” is proven once again true with Motorola’s new mobile phenomenon – the model E1000. Big entertainment offerings abound in the new Motorola E1000, as sophisticated gamers, and entertainment enthusiasts alike will appreciate the latest in 3G capabilities. Fusing hi-tech mobile 3G communications with a compact package, you’ll have a hard time keeping the model E1000 in your pocket. An advanced multi-media machine packed with Bluetooth® Wireless Technology, AGPS and high quality video-conferencing capabilities, the Motorola E1000 brings style and substance to those who seek it.

Naturally Enhanced

Smarter than even the most advanced mobile phone, the model E1000 touts features such as streaming content and playback, image editing along with enhanced predictive-text entry and a built-in MP3 player. Push-to-talk functionality rounds out this coveted feature set by satisfying the user’s every whim with the ability to talk privately or in groups with the push of a button.

Say Cheese

Featuring a 1.2 mega pixel (1280 x 960) integrated camera and QVGA display featuring up to 262K colors, the Motorola E1000 makes taking, sharing and showing pictures a snap. Assign pictures for each address entry with ease and leverage the model E1000’s expandable memory (TriFlash R) for more fun, the power is in your hands.

Look! No Hands!

Use the Bluetooth®-enabled Motorola E1000 to connect wirelessly to compatible headsets, car kits and more. Fast and convenient, Bluetooth® Wireless Technology keeps you in the know while on the go.
