

Motorola E680

Realize the digital dream with the Motorola E680 handset, which bundles unbelievable features into one palmsize package. The model E680 perfectly synchs your entertainment life; merging music, pictures, video, gaming, talk and text with simplicity and style.

- **Point. Click. Share**

Get serious with the Motorola E680's large brilliant color screen and picture/video capture and playback. Its VGA camera and 240 x 320 color screen supports MPEG4 video allowing you to snap some shots of the DJ spinning and send them to a friend across town*, or store them on your personal removable memory chip. View your pictures in landscape or portrait format; manipulate the image with digital effects and then download it onto your PC via USB or Bluetooth® wireless technology. Your night will last forever.

- **You Got The Music In You**

The Motorola E680 gets serious about music: 3D stereo surround sound speakers, RealPlayer™ software, MP3 download/playback, and embedded MIDI music ring tones round out your entertainment fun. Experience the sounds of now on the available stereo headset or FM radio headset accessory. Plus, there's bass by the ton. The music goes wherever you do.

- **Tell Me, Text Me, Talk Me**

Use the Motorola E680 to tell your story in a multitude formats – text, talk, photos, ringtones and so much more. MMS messaging combines text, sounds and pictures to create a postcard from a day in your life.

- **Press Play**

Gaming gets serious on the model E680 with 3D graphics, portable and downloadable J2ME™ games and 8-way navigation and gaming keys. Simultaneous key press and multi-channel audio supports for MIDI background music and MP3 sound effects bring new digital worlds to life.

- **Work It**

The Motorola E680 also functions as a remote office offering seamless connectivity with community and content. Its got the lot – truly open and expandable Java™ Technology on the Linux OS platform, Bluetooth wireless technology USB and up to 1GB of user-expandable memory, GPRS and RealPlayer mean you can message, email, organize and synchronize wherever you are.
