

Motorola E680i

Work hard, Play hard with the Motorola E680i handset, which bundles unbelievable features into one palmsize package. The model E680i perfectly synchs your busy life and entertainment life by merging your love for movies, music, gaming, and communications with simplicity and style.

- **Movie machine**

Get high end entertainment with the Motorola E680i's large brilliant color screen, and video capture and playback capability. Its VGA camera and 240 x 320 color screen supports MPEG4 video allowing you to record an entire DJ spinning session*. Share them with friends when stored in your personal removable memory card. View your movies in landscape or portrait format and transfer them onto your PC via USB or Bluetooth® wireless technology for safe keeping.

- **Music To Go**

The Motorola E680i gives you convenience around your music: 3D stereo surround sound speakers, RealPlayer™ software, digital music playback and media streaming technology for your mobile entertainment fun. Enjoy your favorite music track now through the available BT wireless stereo headset for a hassle free convenience. Not enough?! Listen to FM radio anywhere and feel the musical vibration for extra fun.

- **Press Start**

Gaming gets serious on the model E680i with 3D graphics, portable and downloadable J2ME™ games and 8-way navigation and gaming keys. Simultaneous key press, full landscape view, multi-channel audio supports for MIDI background music and vibration effects to bring you closer to the true gaming experience you know.

- **Tell Me More**

Use the Motorola E680i to tell your story in a multitude formats – text, talk, photos, ringtones and so much more. MMS messaging combines text, sounds and pictures to create a postcard from a day in your life.

- **Synching It Up**

The Motorola E680i also functions as a remote office, offering seamless connectivity with community and content. Its got the lot – truly open and expandable Java™ Technology on the Linux OS platform, Bluetooth wireless technology USB and up to 2GB of user-expandable memory, GPRS and RealPlayer mean you can message, email, organize and synchronize wherever you are. Working hard had never been this easy.
