

MOTO Q™ 9c

With its combination of beauty and brains, the MOTO Q 9c delivers everything the enterprise user needs to get -- and stay -- ahead of the competition, with innovative features wrapped in a sleek, sturdy design. The MOTO Q 9c is an indispensable productivity tool for the busy mobile consumer who's "always on" and "on the go".

Designed for Mobile Life

The slim and stylish MOTO Q 9c features an optimized QWERTY keyboard, precisely engineered for fast and accurate typing, with dedicated keys for shortcuts to the most popular applications. Its large 2.4 inch vivid, flat screen display features innovative adaptive display technology to automatically adjust brightness for indoor and outdoor viewing. The MOTO Q 9c is a multimedia dream with a 1.3 megapixel camera with flash and fixed focus for capturing memorable moments on the run. Microsoft® Windows Media® Mobile makes managing videos, pictures and media play lists a breeze and makes boring down time a thing of the past.

Get Connected

The MOTO Q 9c delivers high-speed mobile Web at EVDO speeds with Microsoft Internet Explorer® and USB 2.0 connectivity. Easy configuration of virtually any consumer email account (POP3/ IMAP4) and Windows Mobile with Direct Push technology keeps users connected to both work and personal email accounts, in real time.¹

Get Ahead

This high tech multi-tasker provides users with organization and productivity solutions needed to keep up with today's fast pace. Windows Mobile® 6 Standard gives users the tools to organize, such as reading corporate emails¹, editing documents with Documents To Go® and managing their calendar and contacts. MOTO Q 9c boasts up to 4GB of optional memory to store documents, files and images while Microsoft ActiveSync® allows users to sync email, contacts and calendars with their PC.

Certain mobile phone features are dependent on the capabilities and settings of your service provider's network. Additionally, certain features may not be activated by your service provider, and/or their network settings may limit the feature's functionality. Always contact your service provider about feature availability and functionality. All features, functionality and other product specifications are based upon the latest available information and are believed to be accurate; however such product specifications are subject to change without notice or obligation.

¹ Network dependent feature, not available in all areas. Airtime, data charges and/or additional charges may apply. Wireless email functionality requires an email account with wireless server capabilities.

² Available user memory varies due to the configuration of the phone, which varies by service provider. Certain mobile phone features may not be available throughout the entire network or their functionality may be limited.

³ All talk and standby times are quoted in Digital Mode and are approximate. Battery performance depends on network configuration, signal strength, operating temperature, features in use, as well as voice, data and other application usage patterns.

⁴ The Moto Q supports Bluetooth "headset", "hands-free" and "music" profiles. In order for Bluetooth devices to communicate with one another, they must utilize the same Bluetooth profile. To determine the profiles supported by other Motorola devices, visit www.hellomoto.com/bluetooth. For other devices, contact their respective manufacturer.

Certain Bluetooth features including those listed may not be supported by all compatible Bluetooth-enabled devices, and/or the functionality of such features may be limited in certain devices, or by certain wireless carriers. Contact your wireless carrier about feature availability and functionality.
