

THE MOTOROLA MPx220 – GLOBAL CONNECTIVITY TO YOUR EMAIL

The quad band, Motorola MPx220 with Windows Mobile™ software, makes global connectivity easier and more flexible than ever. The sophisticated Motorola MPx220 provides mobile professionals a world class feature phone with the constant and global access to email, IM and the Web. For capturing and sharing the instant moments in life, the MPx220 offers an integrated 1.2 megapixel camera with flash and advanced multi-media messaging service (MMS). With seamless access to Pocket Outlook® and Pocket Internet Explorer, the busy professional will never miss an email, IM or a call. In addition photo caller-ID, the ability to download games, musical ring tones and more, the MPx220 promises that business executives can have some fun too. The Motorola MPx220 is the ideal solution for bringing your connections, and your life, on the road.

Pocketable Power

Whether you're on the road or commuting, you can keep track of tasks, check e-mail and manage your business and social calendars so you never miss a meeting or birthday again. The Motorola MPx220 offers the familiarity of Windows Mobile™ software that delivers the Outlook experience without the desktop clutter. And, with a large 64MB flash ROM and removable mini-SD card memory expansion slot; it's like bringing an extra suitcase for storage with you on your travels, without the bulky baggage.

Looking Good

Multi-taskers are time pressed and with the MPx220 you can rely on email and IM for constant access to your colleagues, customers, friends and family. The Motorola MPx220 offers a more personalized connectivity as well. with its digital 1.2 megapixel integrated camera and MMS capabilities which provide users a new way to send messages that contain more than just words. Whether you are facilitating a business deal overseas or just wishing your child "happy birthday", take a photo of yourself, attach a personalized voice recording and send. And with the model MPx220's brilliant, external color display and photo caller-ID you can even see who's calling without opening the phone. Putting a face to a name has never been so easy.

Lose the Wires

With the model MPx220, you don't have to get tangled up in wires to make a point. The Motorola MPx220 integrates AirSync® and ActiveSync® and Bluetooth® wireless technology for the ultimate in connectivity. The MPx220's quad band capability enables you to be connected around the world ensuring that wireless communications is always at your beck and call.
