

Motorola MS500

Seductively stylish and collectively cool, the CDMA-operated Motorola MS500 delivers ultra compact communications power. With illustrious, aluminum housing, a chemically-etched nickel keypad and sleek finish, this phone is an object of mobile lust for fashion conscious consumers. On the flip side, space saving engineering technology packs in a suite of progressive multimedia functionality including a 1.3 megapixel camera, MPEG4 video capture and playback, Multimedia Messaging Service (MMS)* and an integrated MP3 player. Complete with large internal and external displays for viewing images with extreme clarity, the Motorola MS500 demands attention for both its sophisticated style and rich feature set – rising above the mobile pack.

Decadent Design

With the Motorola MS500, the details make the mobile. Its chemically-etched keypad, copper alloy aluminum metal housing and super-slim dimensions of 98 x 53 x 14.5mm set a superior design standard. Nothing short of gorgeous, the model MS500 lives up to lofty aspirations to embody the best of both worlds – looking good on the outside and delivering intelligent functionality on the inside.

Show Me That Smile

For being so thin, the model MS500 delivers an impressive multimedia punch. Viewed on a vibrant 2.2” color screen, the superior quality of the 1.3 megapixel camera easily captures must-have moments and memorable expressions, while MPEG4 video capture and playback adds movement to life’s scenarios. Activate MMS* to share a laugh with friends and family.

All That

This mobile’s got it all – a groove-inspiring MP3 player and access to up-to-the-minute news, weather, sports and celebrity reports via the ‘always on’ Internet browser*.
