

MOTOROLA V265

Style sophisticates and feature fiends – prepare to meet your mobile match with the Motorola V265. Delivering urban chic in a timeless flip phone design and a lengthy list of “must-have” features, the model V265 impresses consumers with its smart combination of style and substance. With an easy-to-use integrated camera, advanced downloading capabilities via BREW technology and Multimedia Messaging Service (MMS), the Motorola V265 makes it easy to shoot, send and download while on the go. And what’s more – your practical side will be shocked at the affordable price.

Mobile Mementos

Thanks to its integrated camera and vibrant color display, the model V265 promises to capture all of life’s candid moments. The exceptionally easy-to-use photo functionality comes with auto-focus and the ability to take self-portraits via a mirror or auto-timer. And with MMS, you can share memories with friends and family by attaching photos to text messages – all with a few taps to the numberpad.

Say My Name

With the speaker independent voice dial feature, there is no need to record a voice dial if the caller recipient is in your phonebook. Without so much as a pause, the model V265 will automatically match the name you speak to the name in the phonebook, and even asks if you want the mobile, home or work number. Did you ever think mobile could be this smart?

Don’t Like It? Change It.

Monday you like blue, and Tuesday you prefer green. Monday you listen to hip-hop, and Tuesday you’re in the mood for jazz. Luckily for you, the Motorola V265 can change at any whim. Thanks to BREW technology and fast data speeds, you can download a new screensaver, wallpaper, MP3 ringtone or game – whenever and wherever the mood strikes you.

Find Yourself

Not only does BREW technology give you the power to add a new game or vivid wallpaper to best suit your style, it also lets you download applications to ease day-to-day frustrations. For example, by simply downloading a GPS or mapping application you can receive live directions through the Motorola V265’s location based services capabilities to make it easy to get from here to there – without complications.

Summary of Features:
