

Motorola V300

The new Motorola V300 bursts with features like a bright color screen, integrated VGA-quality camera, multimedia message services (MMS) and worldwide use* to deliver what you need to live your wild mobile lifestyle. Keeping up with your fashion desires, the model V300's unique soft-touch housing makes you stand out in any crowd. And if that's not enough, check out the model V300's external caller ID**, gaming capabilities, picture phonebook and fast downloading** speeds for a complete wireless experience. With this cute and sporty mobile in your pocket, rise to the cutting edge of wireless technology and mobile fashion in a MotoMoment.

Share Your Shots

Point. Click. Share. With the wireless phone and camera combo, it is a snap to use the Motorola V300 with its integrated VGA-quality camera to capture and send the cutie you passed on the street to a friend's MMS compatible phone or PC**. Your pictures will look crystal clear and full of life on the large color screen capable of supporting up to 65,000 colors. Tell your stories the way YOU want – with words, with pictures, or both!

Text or Talk

Use the Motorola V300 to get your message across in more ways than one - send text messages, photos, animations, ring tones and more to friends' MMS compatible phones or PCs**. Is your birthday coming up? Send photos of the jacket you've been eyeing to friends to give 'em a *little* hint, why beat around the bush?

Rock On

Download** musical ring tunes from favorite artists and use the Motorola V300 to make every day your own concert. Or get into the act and compose your own. With high quality ring tones boasting MIDI and MP3 (optional accessory) capabilities, you'll be grooving all day long.

To the East and to the West

Jetlag won't drag the Motorola V300 down. The tri-band technology easily adjusts to your foreign surroundings in more than 100 countries worldwide*, so you can talk to your friends whether you're in New York or Paris.* Now, if you can only figure out what you just ordered for dinner...

Gotta Work, Love to Play

Need information on the fly? Let your Motorola V300 update you on sports scores, concert information and local restaurants. Need to let off some steam? Jump into playtime by downloading a new game. Use the J2ME™ technology to instantly download information, wallpapers, screensavers and more. And, with 5MB of memory, you have enough room on your mobile for applications and games to keep the kid and the professional in you satisfied.

The Motorola V300 is expected to be available in the second half of 2003. For more information regarding product availability in your region, please check with your local Motorola representative.

* Operates in many major cities and countries where GSM network coverage and roaming agreements are present. **Network, subscription and SIM card or service provider dependent feature. Not available in all areas.
