

MOTOROLA V360

Balancing advanced functionality and affordability, the Motorola V360 defies expectations by addressing imaging and connectivity needs, as well as your budget. This pocketable mobile offers Motorola's dynamic idle solution providing zero-click access to news, sports, entertainment, and weather -- your favorite content available 24/7 on your phone's home screen, keeping you up-to-date and in-the-know!. And, with video capture and playback, an integrated VGA camera, Push-To-Talk (PTT) functionality, Bluetooth® wireless connectivity, an MP3 player and expandable TransFlash™ memory, this classic clamshell proves it's possible to have it all.

Use Your Eyes & Ears

Housed in a slim flip-phone design, the model V360 lets you capture still shots via an integrated VGA camera and moving images with the video capture and playback feature, so you'll never lose the memory of a great moment. An integrated MP3 player promises that you'll always have the tools to groove, while an expandable TransFlash memory card ensures ample room to store your favorite multimedia files.

Good Connections

Connect with one person or an entire group on the spot using the dedicated PTT button to chat walkie-talkie style or the integrated speakerphone. Holding conference calls on-the-fly couldn't be easier. And to make sure all parts of your world are in sync, Bluetooth wireless technology lets you talk hands-free on your long commute using any compatible Bluetooth-enabled headset or car kit.

You Got the EDGE

EDGE technology makes it painless to access the Internet in a flash, download multimedia files and share video with lightening speed*. Now it's a breeze to check out the latest news, sports and weather or to catch up on email at your leisure – whether away from home or the office.
