

MOTOROLA V400p

The new Motorola V400p is the first GSM push-to-talk (PTT) handset that elegantly combines instant access to contacts around the globe via push-to-talk technology with the latest in photo messaging. With an intuitive design and rich feature set, this mobile marvel offers one-handed instant communications with a dedicated PTT button combined with favorite mobile features including high-quality integrated speakerphone, downloading capabilities and musical ring tones. Whether viewing the incorporated push-to-talk user interface or playing Stuntman, the Motorola V400p gives you the tools you need to survive the boardroom and enjoy the weekends.

Instant Communication

The next generation of instant communication, the Motorola V400p enables you to talk privately or in groups with a single push of a button – all while saving talk minutes. And with a contact list presence capability, you'll always know who is free to talk. Built with an integrated easy to use speakerphone that is loud enough for the car, office or outdoors, you'll always be able to hear loud and clear.

Strike a Pose

The Motorola V400p's integrated VGA-quality digital camera with 4x zoom gives you the power to share every memorable moments in an instantly. Just point, click and send photos with personalized voice messages to friends, family or associates using the model V400p's Multimedia Messaging (MMS) capabilities. When you have time to spare, sit back and watch pictures vividly spring to life on the bright 65,000 large color display and save favorite photos as wallpaper, screensavers or as personalized phonebook entries.

Around the Globe

Traveling in unfamiliar territory? While on-the-go around the globe for business or pleasure, the Motorola V400p's quad-band technology enables you to always stay connected in style.
