

## **MOTOROLA V620**

The Motorola V620 reaches a level of stylish sophistication and intense technology that is designed to turn heads and evoke mobile envy. With an integrated digital VGA camera, video capture and playback, Bluetooth® wireless technology and situational lighting, all housed in a sleek metal housing, the model V620 delivers fast and convenient functionality with extreme elegance. And personalizing this mobile marvel is simple – just mix and match the interchangeable metal covers and choose from a variety of downloadable pictures, sounds, wallpaper and games to exude your own, unique personal style and make the Motorola V620 a mobile accessory designed just for you.

### **Just Shoot Me**

With MPEG4 video capture and playback and an integrated VGA camera, the model V620 ensures that you never miss a moment. Point, click and send using Multi-media Messaging Service (MMS) and you'll have friends and colleagues "oohing" and "ahhing" over your every adventure. And, with an animated color display every image, animation and video clip will look crystal clear.

### **Climb the Mobile Ladder**

To be sure that you are one step ahead of the game, utilize Bluetooth technology for a seamless, hassle-free connection to compatible wireless devices, PDAs or PCs. Out of the country? No problem – quad-band technology guarantees that you can talk and text around the world.

### **Attention-Getter**

With an array of eye-catching interchangeable metal covers, endless screensavers and musical ringtones options the Motorola V620 is sure to capture attention and stimulate the senses. Completing the package you will find situational lighting located on the front of the handset that identifies the mobile activity currently taking place – from incoming calls to Bluetooth connections.

### **Player**

Enjoy those few windows of downtime by challenging yourself with embedded and downloadable games available on your model V620. A large color display, great speaker, spacious number pad and 5 megabytes of end user memory make this mobile a gaming delight.
