

MOTOROLA V80

A sleek black pebble one moment, a full-sized mobile the next and a one-touch camera the next -- the Motorola V80 defies convention. Don't let its small size deceive you. With a flick of your finger, the cover rotates 180 degrees for ideal conversation size and with a slight rotation of the cover the phone switches to camera mode. With an always-visible landscape capable color display, embedded VGA camera, shiny metal finishes, integrated Bluetooth® wireless technology capabilities and MP3 ringtones – this new mobile is the ultimate companion for style seekers who desire to make a statement with every move.

Style Seekers Rejoice

Introducing a new definition of the mobile accessory. The Motorola V80 has a refined and well-crafted design that is a pleasure to see and to feel. The small handset expresses sophisticated taste with its attention-grabbing rotating cover, eye-catching contextual lighting, internal antenna and elegant finishes. And, having only one hand free is not a problem for the model V80. With its “assisted opening” capabilities, you just give the rotator a nudge and the phone opens. Voila!

Candid Camera

Featuring an embedded VGA-quality digital camera with 4x zoom and vivid landscape capable color display, the Motorola V80 lets fashionistas capture vivid photos of the latest street trends and red carpet moments via a one-step process, landscape imaging and external viewfinder. With Multimedia Messaging (MMS) capabilities, you can instantly send memorable moments complete with a personalized voice message to show off every adventure to your many admirers.

Mind-Blowing Connectivity

Use the Bluetooth wireless technology-enabled Motorola V80 to connect wirelessly to compatible headsets, car kits and more. Fast and convenient, Bluetooth wireless technology keeps you in the know while on the go, whether at the premiere of the latest Hollywood premiere or the front row of a fashion show in Paris, it is easy to connect in style.
