

## **MOTOROLA V975**

Shoot a video, send a photo, download a MP3 ringtone, conduct a chat via 2-way video conferencing or play a favorite game on a huge color display. It's all possible with the affordable Motorola V975, which boasts 3G technology for broadband-like speeds. This sleek, clam shell, mobile handset features a bounty of multi-media options to keep you informed, in touch and entertained while on-the-go. The sophisticated Motorola V975 provides multiple synchronization options and a built-in speakerphone. Topped off with a large 1 inch external color display and an even larger 1.9 inch internal color display, the Motorola V975 merges futuristic functionality and superior style, creating a handset with serious "wow" power.

### **Can You See Me Now?**

The Motorola V975 has revolutionized communication – with 3G speeds and 2-way video conferencing capabilities. You can not only hear the person you are calling, but you can see them too. The Motorola V975 also comes complete with a brilliant 65K TFT color screen and built-in 16mm polyphonic speaker. With its global roaming capabilities, the model V975 promises that every incoming call sounds great whether conducting business in Bali or catching up with friends in Chicago.

### **Digital Dream**

With the Motorola V975, it is easy to record and share each mobile adventure. The unit allows for picture taking with its integrated VGA quality camera with 4x zoom as well as video streaming, capture, download and playback. The integrated digital imaging enhancement technology allows you to tweak your favorite photo or video clip just the way you want it; Multi-media Messaging Service (MMS) allows you to share them. With the Motorola V975 you get to call the shots.

### **Look Pretty Act Smart**

The Motorola V975 goes above and beyond the call of beauty with metal-like finishing, sleek form factor, and large keypad for easy navigation. With downloading capabilities, over the air synchronization, voice recognition and a removable TransFlash Memory card to add storage; this sophisticated handset does much more than look good.
