

Introduction

The MGS that you have just installed allows you to login to the MGS Online gaming community to download and play fantastic games with other players.

Login frequently to check out the latest games and new features for download.

Important

MGS needs to access the internet. Consult your service provider to set the correct access point.

MGS Online depends on the quality and speed of your network connection. Whenever a problem occurs, wait for a better connection before login or restart MGS. MGS may automatically disconnect if network connection is poor. Should problems persist, please contact your service provider or email us at help@nmprod.com.

MGS Glossary

1. [Can not find the page](#)
The page can not be properly loaded. When this happens, try again or check your connection.
2. [Change password](#)
