

Motorola C300 Series

Brilliant mind. Playful soul. Great body.

No, we're not talking about an eligible dating prospect ... it's your new techno soul mate, the Motorola C300. It's the perfect partner as you navigate life's little dramas. The Motorola C300 will be your constant connection during your daily commute, right through to the after-dark romp. More than your average mobile, the Motorola C300 can be tailored to your personal style with custom lifestyle profiling. Designate special icon tags and ring tones to keep track of that unwieldy list of friends, family and colleagues. Games, downloadable ring tones and screensavers, chat messaging and more make the Motorola C300 quite the catch!

Hey Good Lookin'

How can you not love a phone that is both cute and sexy all at once! The Motorola C300's ergonomic design and form is sure to turn heads. An internal antenna and tiny, compact size make the C300 perfectly portable.

Dazzling Dialing

Lights, dial, action! Translucent keys and a blue backlight come together to create the Motorola C300's "fun lights" feature. As lighting patterns appear behind the keys when the phone rings, you can catch the eye of that special someone or find your phone at the bottom of your bag.

Text Me, Tease Me, Please Me

Prepare to send SMS text messages like never before*. EMS 5.0 allows texting to include pictures and sounds, providing a richer and more exciting way to get your message across. SMS chat lets you show your true personality in quicker, easier and cooler ways. Tap in a message and watch the conversation unfold!

High Tech Bouncer

Making sure only the in-crowd gets through, the Motorola C300 provides special profiling that allows you to assign icon tags and ring tones to your incoming calls*. It's the ultimate tool for savvy social butterflies!

Freedom to Fool Around

All work and no play ... well you know the drill. Entertain yourself with embedded "vibra-shock" games that use other cool features of the phone for a real thrill. VibraCall® alert and other ring tones get in on the game action and become part of the experience. Goodbye, tic-tac-toe – hello, shake, rattle and roll!

A Better Flavor of Screensaver

There's never a dull moment with the Motorola C300. Animated screensavers provide yet another way to express your personal style. Need a fresh look? Just download new screensavers and wallpaper.

Have a Ring Fling

The Motorola C300 will stand out from the crowd with distinctive ring tones that fit your personal preference. Download your favorite ring tones or compose a version with your own special flavor. Then, send your must-have tones to friends and family ... it'll be music to their ears.

Hidden Agenda

Ready to roll with the punches, the Motorola C300 can adjust to your agenda anytime with its calendar and scheduled power on/off features. The built in calendar and alarm will help make sure you never miss an important event. A pre-set timer will automatically wake the phone up and shut it down at a designated time. Pressing the power button is so five-minutes-ago!
