

MOTOROLA E815

Get ready for the next phase in multimedia mobile technology with the Motorola E815. This must-have handset delivers premium wireless broadband connectivity via Evolution for Data Only (EvDO) technology and cutting-edge features that will change the way you hear and see the world. With Video on Demand* capability, a 1.3 megapixel camera, MP3 player and brilliant color screen, you'll enjoy a superior mobile sensorial experience. And thanks to Bluetooth® wireless technology, fast downloading, optional storage via a TransFlash Memory Expansion Slot, speaker independent name and digit dialing, and advanced messaging you've got an incomparable mobile package.

The Next Generation

Experience rapid downloads and hands-free communication thanks to the Motorola E815's wireless broadband connectivity with CDMA 1x and EVDO technology and Bluetooth technology. Now you can download games, streaming video, MP3 tunes and business applications at lightning speeds*.

Crisp & Clear

Move and groove your way to the next stage of music enjoyment with the Motorola E815. Also an MP3 player, the model E815 provides superior quality of sound and delivery, stereo headset support and a 64 polyphonic sound engine – giving you a new found respect for mobile music!

Photo Fun

Shoot life's candid moments with the Motorola E815's integrated 1.3 megapixel camera, then share via advanced Multimedia Messaging Service (MMS). No need to worry about having to transfer photos to save space – the Motorola E815 has optional storage with a TransFlash memory Expansion Slot, so you can literally commit life's moments to memory.
