WHY MOTOROLA?

Motorola's primary goal is **Total Customer Satisfaction**. To accomplish this objective, Motorola has developed engineering and testing processes that lead to incredible quality and reliability. Motorola's exclusive **Accelerated Life Testing (ALT)** has set the standard for design, parts and manufacturing – resulting in **Best in Class** communications devices.

The rigorous ALT process simulates 5 years of extreme usage under actual field conditions with an intense 5 week testing process, including: dropping, cold, heat, humidity, electrostatic discharge, dust and vibration. This **dedication and commitment to Quality** give you the confidence that Motorola's phones are the best designed to satisfy your customers' needs.

MOTOROLA GO TO GUIDE: MPx200

YOUR OFFICE. DISGUISED AS A PHONE.

The MPx200 combines the power of the Personal Computer with the "always on" convenience and portability of the Mobile Phone.

TRAINING GUIDE FOR THE MOTOROLA MPx200

[1] Network and subscription dependent feature. Not available in all areas.

[2] Talk time and Standby time (TT/ST): All talk and standby times are quoted in Digital Mode, and are approximate. Battery performance depends on network configuration, signal strength, operating temperature, features selected, and voice, data and other application usage patterns. Talk times will be lower when in Analog Mode.
