

## **MOTORAZR xx**

Featuring the perfect blend of broadband-like speed, dynamic multimedia capabilities, and cutting-edge design, the MOTORAZR xx is the ultimate combination. The MOTORAZR xx delivers high-speed connectivity and premium multimedia capabilities in the award-winning RAZR form. The first Motorola handset to ship with High-Speed Downlink Packet Access (HSDPA) and EDGE technology, the MOTORAZR xx brings effortless style and the power of high-speed connectivity – no compromises necessary. A compact entertainment machine, the MOTORAZR xx knows how to connect you quickly to the information and content that matters most. Demand the best in elite style and unrivalled functionality and enjoy the best of both worlds with this stylish new model.

## **PEERLESS STYLE**

The design of the MOTORAZR broke ground with industry-leading design and legendary style. This revolutionary form factor offers the MOTORAZR xx head-turning elegance for even the most style-conscious user. This slim phone packs advanced functionality into an ultra-desirable package, with premium metal finishes, a precision cut keypad and a svelte form measuring barely half an inch thick. Slender, stylish and luxurious, the MOTORAZR xx is set to impress from the word "Go."

## **MAKING THE CONNECTION**

The MOTORAZR xx is a secret mobile weapon in the digital world – keeping users connected while on the go. With HSDPA and EDGE technology, the MOTORAZR xx delivers broadband-like speeds for downloading, web browsing and data exchange<sup>1</sup> – literally providing you with broadband in your hand! Leveraging these advanced capabilities, the MOTORAZR xx handset allows for live two-way video calls at up to 15 frames per second<sup>1</sup>, over the air music and video downloads, streaming media and more<sup>1</sup>. Combine that with advanced integrated Bluetooth™ wireless technology<sup>2</sup>, an integrated calendar and a 1000-entry phonebook – now emailing after a business lunch or sending a personalized video greeting<sup>1</sup> is a walk in the park.

## **ENTERTAINMENT AT BROADBAND-LIKE SPEEDS**

High-speed connectivity combined with advanced multimedia entertainment, the MOTORAZR xx will make that dull airport delay a thing of the past. Effortlessly download the latest music videos, catch up on news or check out a favorite television show via live streaming content<sup>1</sup>, transmitted over the air with broadband-quality speed straight to the MOTORAZR xx's clear 2.2 inch color screen – no waiting required. Sit back and relax to your favorite tunes - the MOTORAZR xx features an integrated MP3 player with Media Finder for easy navigation and A2DP and AVRCP Bluetooth stereo profiles for wirelessly streaming music to your compatible Bluetooth enabled stereo headphones<sup>2</sup>. When the artistic mood strikes, create personalized content in low or high resolution via the MOTOROLA xx's offering of a VGA camera *and* a powerful 1.3 megapixel digital camera. Snaps of friends and family, sights and sounds from travels and even video clips can be effortlessly saved to the optional, hot swappable microSD™ memory card.

Certain mobile phone features are dependent on the capabilities and settings of your service provider's network. Additionally, certain features may not be activated by your service provider, and/or their network settings may limit the feature's functionality. Always contact your service provider about feature availability and functionality. All features, functionality and other product specifications are based upon the latest available information and are believed to be accurate; however such product specifications are subject to change without notice or obligation.

<sup>1</sup> Network and/or SIM card dependent feature, not available in all areas. Airtime, data charges, and/or additional charges may apply.

<sup>2</sup> This device supports Bluetooth A2DP and AVRCP profiles in addition to Dial up Networking, Object Push, File Transfer (server), Image Profile, Printing Profile and Handsfree 1.5 profile. In order for Bluetooth devices to communicate with one another, they must utilize the same Bluetooth profile. To determine the profiles supported by other Motorola devices, visit [www.hellomoto.com/bluetooth](http://www.hellomoto.com/bluetooth). For other devices, contact their respective manufacturer. Certain Bluetooth features including those listed may not be supported by all compatible Bluetooth-enabled devices, and/or the functionality of such features may be limited in certain devices, or by certain wireless carriers. Contact your wireless carrier about feature availability and functionality.

<sup>3</sup> Available user memory varies due to the configuration of the phone, which varies by service provider.
