

## RAZR<sup>2</sup> V8

Confident and strong, this next-generation RAZR™ takes thin to the next level by packing it with a new, richer multimedia experience. RAZR<sup>2</sup> V8 provides an unmatched music experience. It comes complete with 512MB end user memory<sup>1</sup> or 2GB memory, USB 2.0 high speed for fast music file transfers<sup>2</sup>, Windows Media Player® 11 synchronization for simple music management and a music touch screen on the external display for effortless control.

### Get In Touch

The touch-sensitive music controls, located on the large color external display, maintains a sleek look while consumers manage and play songs purchased from any Windows-based music store. Users can also read and reply to texts<sup>3</sup> via RAZR<sup>2</sup> V8's external display, which is the largest in its class. After flipping open the phone to start the music player, users can sit back, listen and enjoy without ever flipping open the phone again.

### Personal Paparazzi

With quad band technology, travel the world a little lighter.<sup>4</sup> Users can take advantage of the 2.0 megapixel camera, video capture and playback, and up to 2GB<sup>1</sup> of internal memory to capture every unforgettable moment in high resolution.

### Dressed to Thrill

The RAZR<sup>2</sup> V8 is outfitted in extravagant materials tailored to sleek perfection. A stainless steel frame helps ensure strength while vacuum metal housing, chemically hardened glass, spun metal and chrome create an amazing appearance.

*Certain mobile phone features are dependent on the capabilities and settings of your service provider's network. Additionally, certain features may not be activated by your service provider, and/or their network settings may limit the feature's functionality. Always contact your service provider about feature availability and functionality. All features, functionality and other product specifications are based upon the latest available information and are believed to be accurate; however such product specifications are subject to change without notice or obligation.*

<sup>1</sup> Available user memory varies due to the configuration of the phone, which varies by service provider.

<sup>2</sup> The unauthorized copying of copyrighted materials is contrary to the provisions of the Copyright Laws of the United States and other countries. This device is intended solely for copying non-copyrighted materials, materials in which you own the copyright, or materials which you are authorized or legally permitted to copy. If you are uncertain about your right to copy any material, please contact your legal advisor.

<sup>3</sup> Network and/or SIM card dependent feature, not available in all areas. Airtime, data charges, and/or additional charges may apply.

<sup>4</sup> Operates in many major cities and countries where GSM network coverage and roaming agreements are present.

<sup>5</sup> This device supports Bluetooth A2DP-Source, AVCTP, AVDTP, AVRCP-Target, BIP-ImagePush, BPP-SenderDev, DUN-GW, FT-Server, GAP, GAVDP, Headset-AG, HFP (1.5) AG, OPP-Client, OPP-Server profiles. In order for Bluetooth devices to communicate with one another, they must utilize the same Bluetooth profile. To determine the profiles supported by other Motorola devices, visit [www.hellomoto.com/bluetooth](http://www.hellomoto.com/bluetooth). For other devices, contact their respective manufacturer.

*Certain Bluetooth features including those listed may not be supported by all compatible Bluetooth-enabled devices, and/or the functionality of such features may be limited in certain devices, or by certain wireless carriers. Contact your wireless carrier about feature availability and functionality.*

<sup>6</sup> All talk and standby times are quoted in Digital Mode, and are approximate. Battery performance depends on network configuration, signal strength, operating temperature, features selected, and voice, data and other application usage patterns.
