RAZR² V8 Luxury Edition

RAZR² V8 Luxury Edition is a stunning blend of cutting-edge technology and bold, sophisticated details that is the pinnacle of ultra-premium cool.

The Glamorous Life
This special edition of the RAZR² has gone "lux" with 18k gold plated accents standing out against a luminous, black slate, vacuum metal finish. Decadent details, such as elegant pin stripes on the CLI lens, an engraved diamond-cut pattern on the sideband and a linear etching on the navigation wheel add to the edgy, yet chic, finishes of the device. With a soft-touch back, embossed with a snakeskin effect, the device even feels luxurious in the hand.

Fully Loaded
This special edition mobile device features a full suite of in-demand features, including Crystal Talk™ technology, quad-band technology, a full HTML browser[1], and a 2.0 megapixel camera with 8X digital zoom, video capture and playback to catch every glamorous moment in high-resolution. The special edition of the RAZR² features a large, 2.0", interactive, color external screen where consumers can read and respond to texts and manage their music[1] with touch sensitive music keys that give a vibrational response – all without opening the flip. With up to 2GB of on-board storage for up to 1,000 songs[2], a powerhouse processor for fast over-the-air downloads[1] and Windows Media Player® 11, enabling access to over 200 online music stores, including favorites such as MTV Urge, Yahoo and Napster[1], this special edition of the RAZR2 maximizes the music experience.

Accessories Complete the Look
As a special bonus, the special edition of RAZR² comes complete with a black slate Motorola H680 headset[5] with 18K gold accents and a patent leather carrying case. With up to 8 hours of crisp, clear talk time and 8 days of standby time, the petite and stylish H680 is the premium choice for the constant conversationalist and the perfect companion to the RAZR[2].

RAZR² V8 Luxury Edition	
Size	53 x 103 x 12.05mm
