

RAZR2™ V9x

Now packed with even more of the features consumers' desire, the RAZR2 V9x is still as beautiful, stylish and strong as ever. The large, vibrant, external display has expanded touch capabilities that allow you to immediately launch the most popular features. Instantly access AT&T Navigator¹ with maps and turn-by-turn directions or play music and browse the AT&T music store¹. Play or stream videos in landscape mode, access the Cellular Video¹ store or conveniently view notifications and messages. All without opening the flip!

Hear and Watch It

Consumers can get their groove on with AT&T Mobile Music¹ for the ultimate music experience. The push of a button provides access to their favorite tunes, music videos, music news and more. Users can also keep the media experience going with Cellular Video and watch news, sports, weather and entertainment clips on the large 2 inch external display. Plus, they can share their world with Video Share¹, easily streaming live video directly to another capable phone.

Find it

Never get lost again. With turn-by-turn GPS directions on screen and by voice, AT&T customers will find what they're looking for every time they hit the road^{1,2}. And with more than 10 million business listings, they'll always know where the best restaurant in town or the hottest club is hiding.

Certain mobile phone features are dependent on the capabilities and settings of your service provider's network. Additionally, certain features may not be activated by your service provider, and/or their network settings may limit the feature's functionality. Always contact your service provider about feature availability and functionality. All features, functionality and other product specifications are based upon the latest available information and are believed to be accurate; however such product specifications are subject to change without notice or obligation.

1 Network and/or SIM card dependent feature, not available in all areas. Airtime, data charges, and/or additional charges may apply. Video Share calling connectivity requires a Video Call sharing compatible phone.

2 The use of wireless phones while driving may cause distraction. Discontinue a call if you can't concentrate on driving. Additionally, the use of wireless devices and their accessories may be prohibited or restricted in certain areas. Always obey the laws and regulations on the use of these products.

3 All talk and standby times are quoted in Digital Mode, and are approximate. Battery performance depends on network configuration, signal strength, operating temperature, features selected, and voice, data and other application usage patterns.

4 This device supports Bluetooth A2DP-Source, AVCTP, AVDTP, AVRCP-Target, BIP-ImagePush, BPP-SenderDev, DUN-GW, FT-Server, GAP, GAVDP, Headset-AG, HFP (1.5) AG, OPP-Client, OPP-Server profiles. In order for Bluetooth devices to communicate with one another, they must utilize the same Bluetooth profile. To determine the profiles supported by other Motorola devices, visit www.motorola.com/bluetooth. For other devices, contact their respective manufacturer. Certain Bluetooth features including those listed may not be supported by all compatible Bluetooth-enabled devices, and/or the functionality of such features may be limited in certain devices, or by certain wireless carriers. Contact your wireless carrier about feature availability and functionality.
