

Install Memory Card

1

Remove the back cover and battery from your phone.

3

Slide holder shut and lock into place.

The card will not work unless it is inserted properly and locked into place.

2

Lift the card holder up and insert the card with the gold contacts facing down.

Position the card so the notch in the card compartment on the phone lines up with the groove on the card.

4

Replace the battery and back cover.

View Storage Information

1

Press the **Menu** key.

2

Scroll to **Settings**, then press the joystick.

3

Scroll to **Phone Status**, then press the joystick.

4

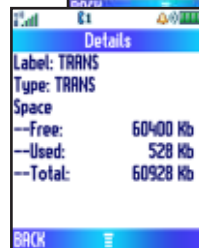

Scroll to **Storage Device**, then press the joystick.

5

Press **DETAILS**.

Tip: Press the **Menu** key to format or rename the card.

View Multimedia

1

Press the **Menu** key.

2

Scroll to **Multimedia**, then press the joystick.

3

Scroll to the desired multimedia, then press the joystick.

Here we'll show you how to view the pictures you have stored on the memory card.

4

The icon in the file list title indicates the current storage device,  (phone) or  (memory card).

To switch the storage device, press the **Menu** key.

5

Scroll to **Switch Storage Device**, then press the joystick.

6

Scroll to the desired option, then press the joystick.

Store Multimedia

1

You can save pictures and videos on the phone or memory card. View or change the storage setting **before** you take the picture or start to record.

From the camera or video viewfinder, press the **Menu** key.

2

Scroll to **Switch Storage Device**, then press the joystick.

3

Select or make sure **TRANS** is checked to save to the memory card.

Transfer Multimedia

- 1 Press the **Menu** key.

- 2 Scroll to **Settings**, then press the joystick.

- 3 Scroll to **Connection**, then press the joystick.

- 4 Scroll to **USB Settings**, then press the joystick.

- 5 Scroll right to change the USB connection to the memory card.

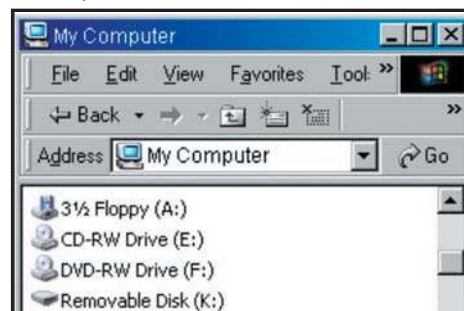

- 6 Attach one end of the Motorola Original USB cable to the accessory port on your phone and the other end to an available USB port on your computer.

- 7 Find where your phone's memory card displays as a **Removable Disk** icon. On a PC, this is the My Computer window. On a Mac, it's on the desktop.

Double click the **Removable Disk** icon to access the files on your phone's memory card.

- 8 Drag and drop files between your computer and memory card. When transferring files to your phone, use the following folders:

mobile/picture - pictures, wallpaper, screen savers
mobile/video - video clips
mobile/audio - MP3 files

Note: MP3 files transferred this way cannot be played in iTunes on your phone. To load music files on your phone for playback, use the iTunes software on your computer.

- 9 Before disconnecting the cable

If you are using a PC, right click the **Safely Remove Hardware** icon at the bottom of your computer screen. Then select **USB Mass Storage Device** and **Stop**.

If you are using a Mac, drag the **Removable Disk** icon to the Trash.

- 10 Select **USB Mass Storage Device** and press **OK**.

Now it is safe to disconnect the cable.

- 11 On your phone, scroll right to change the USB connection back to **Data/Fax**.

Transfer Songs

1 Before you can transfer songs to your phone, you must install the iTunes® software on your computer using the CD provided in the box with your phone. Follow the steps in this demo after you install iTunes on your computer.

Note: You must have a memory card in your phone to use iTunes.

Press the **Menu** key.

2 Scroll to **Settings**, then press the joystick.

3 Scroll to **Connection**, then press the joystick.

4 Scroll to **USB Settings**, then press the joystick.

5 Scroll right to change the USB connection to the memory card.

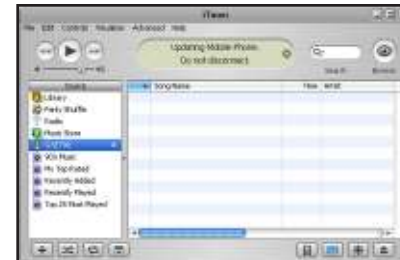

6 Open iTunes from the Start menu on a PC or from the dock on a Mac.

7 Connect one end of the Motorola Original USB cable to the accessory port on your phone and the other end to an available USB port on your computer.

8

Your phone will appear in the Source list in the left pane of the iTunes window. If this is the first time you have connected your phone to iTunes, you may be asked to name your phone.

9

Click on **Library** in the Source list.

10

Drag and drop songs, albums, or playlists to your phone

-or-

Click **Autofill** at the bottom of the screen to automatically transfer a random selection of songs to your phone.

Transfer Songs

11

You will see a message at the top of the iTunes screen when the music transfer is complete. If you still see **Do Not Disconnect** on your phone and you want to disconnect your phone:

PC: Quit iTunes and use the **Safely Remove Hardware** icon at the bottom of your computer screen to disconnect your phone.

Mac: Click on the **Eject** button next to the phone icon in iTunes.

12

On your phone, scroll right to change the USB connection back to **Data/Fax**.

Play Music

1

To add music to your iTunes library, you can purchase music from the iTunes Music Store or import CDs.

To learn more, visit www.apple.com/support/itunes for information on how to load music into iTunes.

Press the **iTunes** key.

2

You can also press **PLAY** to play songs from a playlist, album, or artist. To play songs in random order, scroll to **Shuffle Songs** and press **PLAY**.

To select a specific song, first scroll to **Artists**, then scroll right to see the list of artists on your phone.

3

Scroll to an artist, then scroll right to see a list of the artist's albums.

4

Scroll to an album, then scroll right to see the list of the songs on the album.

5

Scroll to a song, then press **PLAY**.

While a song is playing:

Press the joystick up or down to adjust the volume.

Press the joystick left or right to go to the previous or next song.

Hold the joystick to the left or right to rewind or fast forward the current song.

Take and Send a Picture

1

Press the **Camera** key.

2

Press the joystick up or down to zoom in or out, and left or right to adjust the image brightness.

3

Press **Capture**.

4

Press **Store**.

5

Select the desired option, then press the joystick.

In this demo, we'll show you how to send the picture in a message.

6

You can enter a short message to send with the picture. Enter your message and then press **SEND TO**, or just press **SEND TO** to send the picture without a message.

7

Pick the message recipients by scrolling to one or more names and pressing the joystick after selecting each one. When all names are selected, press **SEND**.

Tip: To deselect a name, highlight it and press the center navigation key. It is deselected when the checkmark disappears.

View Your Pictures

1

Press the **Camera** key.

2

Press the **Menu** key.

3

Press the joystick.

Tip: Use the **Switch Storage Device** option to switch between viewing the pictures on your phone and the pictures on the memory card.

4

Scroll to a picture,
then press **VIEW**.

Press the **Menu** key to see more things you can do with the picture, such as send it or apply it as a screen saver or wallpaper.

Pair (Link) Headset

1

Press the **Menu** key.

2

Scroll to **Settings**, then press the joystick.

3

Scroll to **Connection**, then press the joystick.

4

Press the joystick.

5

Scroll to **Setup**, then press the joystick.

6

Scroll to **Power**, then right press the joystick to turn the power on.

7

Press and hold the Call button until the LED turns on and remains steadily lit.

If the LED is flashing or does not remain steadily lit, make sure the headset is fully charged and then repeat this step.

Note: If you are using a different headset than the Motorola HS850 shown here, see the headset *Quick Start Guide* for instructions on how to put your headset into pairing mode.

8

Immediately open the folding boom microphone. The LED should remain steadily lit.

9

On your phone, press **BACK**.

10

Scroll to **Handsfree**, then press the joystick.

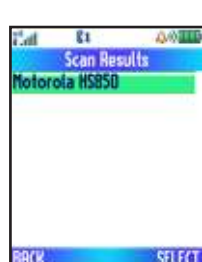

Pair (Link) Headset

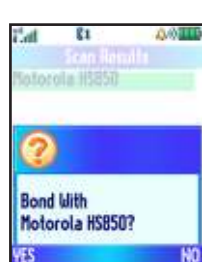

- 11 Press the joystick.

- 14 Enter the passkey 0000, then press **OK**.
- When pairing is successful, the LED on the headset changes from steadily lit to flashing.

- 12 Press the joystick.

- 13 Press **YES**.

- 15 To confirm your phone and headset are successfully paired and operating properly, put the headset on and make a call.
- If your phone and headset are successfully paired, you will hear ringing.

Autoconnect Feature

1

Press the **Menu** key.

2

Scroll to **Settings**, then press the joystick.

3

Scroll to **Connection**, then press the joystick.

4

Press the joystick.

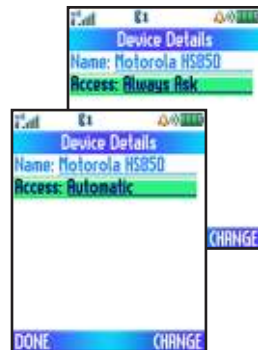

5

Scroll to **Device History**, then press the joystick.

6

Scroll to the headset name, then press the joystick.

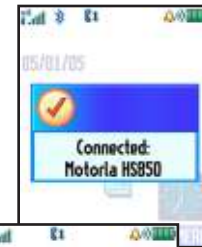

7

Scroll to **Access**, then scroll right to change the **Access** setting to **Automatic**.

8

Press **DONE**.

9

To use your headset, simply open the folding boom microphone. Your phone will automatically connect to the headset.

To disconnect your phone from the headset, close the folding boom microphone.
