

MOTOSLVR™ L9

A refreshing twist to the original MOTOSLVR, the MOTOSLVR L9 is still inspiringly entertaining, with an extra flair for fun. When you're in the mood to have a good laugh or rock to a familiar beat, the only thing you need is the MOTOSLVR L9 to put a smile on your face. Complete with a FM radio (requires the use of a wired headset) and stereo Bluetooth® wireless technology¹, you'll be constantly entertained. With a 2 megapixel camera with 8x zoom, coupled with landscape and portrait modes availability, you can capture up-close moments in a heartbeat. Video capture your precious moments with up to 4x zoom and share the clips in full screen playback mode. With up to 20MB of internal memory² and room for an optional microSD card, you can store up to 2GB of ringtones, games, pictures, videos and more. Embodying a stunning mirror-reflective style, shimmering black keypad, the MOTOSLVR L9 certainly excites your digital lifestyle.

Inspire and Thrill

Featuring a reflective, mirror finish and shimmering black keypad, the sleek MOTOSLVR L9 is a fashion statement that makes heads turn. Mirroring your personality, the new addition to the MOTOSLVR family allows you to express yourself with a 2.0 megapixel camera with full screen video capture and playback! Tune in to your favourite radio station or put on your compatible Bluetooth enabled stereo headset,¹ and you're ready to turn on the heat.

Excite and Entertain

Complete with GPRS class 10 and EDGE class 10 technologies for progressive downloads and video streaming, you can quickly update the integrated digital audio player and download MP3/AAC ringtones quickly.³ Before taking off on a flight, the MOTOSLVR L9 is capable of being filled up to 2GB of videos, pictures and music on your optional external microSD card. Turn on the airplane mode and enjoy uninterrupted entertainment for the entire duration of your trip. Not only does this sleek, yet durable mobile fit perfectly in your hand, it also boasts up to approximately 400 minutes of talk time and 350 hours of standby time.⁴ The MOTOSLVR L9 is built to keep up with you day in and day out.

Roam Free

Wireless freedom is yours with the MOTOSLVR L9. With stereo Bluetooth wireless technology, the MOTOSLVR L9 allows you to simply sync with any compatible Bluetooth-enabled stereo device. Send a high-resolution picture to a compatible Bluetooth-enabled color printer or listen to the music via a compatible Bluetooth-enabled stereo headset.¹ With CrystalTalk™ noise audio adaptive feature, conversations in noisy environments are crystal clear.

Certain mobile phone features are dependent on the capabilities and settings of your service provider's network. Additionally, certain features may not be activated by your service provider, and/or their network settings may limit the feature's functionality. Always contact your service provider about feature availability and functionality. All features, functionality and other product specifications are based upon the latest available information and are believed to be accurate; however such product specifications are subject to change without notice or obligation.

¹ This device supports Bluetooth A2DP-Source, AVCTP, AVDTP, AVRCP-Target, BIP-ImagePush, BPP-SenderDev, DUN-GW, FT-Server, GAP, GAVDP, Headset-AG, HFP (1.5) AG, OPP-Client, OPP-Server profiles. In order for Bluetooth devices to communicate with one another, they must utilize the same Bluetooth profile. To determine the profiles supported by other Motorola devices, visit www.hellomoto.com/bluetooth. For other devices, contact their respective manufacturer.

Certain Bluetooth features including those listed may not be supported by all compatible Bluetooth-enabled devices, and/or the functionality of such features may be limited in certain devices, or by certain wireless carriers. Contact your wireless carrier about feature availability and functionality.

² Available user memory varies due to the configuration of the phone, which varies by service provider.

³ Network and/or SIM card dependent feature, not available in all areas. Airtime, data charges, and/or additional charges may apply.

⁴ All talk and standby times are quoted in Digital Mode, and are approximate. Battery performance depends on network configuration, signal strength, operating temperature, features selected, and voice, data and other application usage patterns.
