

MOTOZINE™ ZN5

MOTOZINE ZN5 is the first mobile phone to combine Motorola's ModeShift Technology and KODAK Imaging Technology redefining the quality, convenience and connectivity of mobile imaging devices.

Redefining Mobile Imaging

Simply slide the lens cover open to illuminate ModeShift

Technology, transforming the full-featured mobile phone into an ultra-fast 5 megapixel camera, complete with auto-focus, low-light optimization, and a bright Xenon flash. ZINE™ ZN5 is the only mobile phone to have KODAK Imaging Technology that can be instantly combined with KODAK PERFECT TOUCH Technology for brighter, more vivid pictures on the spot which look noticeably better than pictures created without the technology. Users can take advantage of multiple capture modes, including panorama, which automatically stitches together continuous shots taken on the horizon line into a single, extended image¹.

Snap and Share – Instantly!

No other phone from Motorola puts image capture first, with a high-resolution landscape screen and one of the fastest click-to-click times available for 5 megapixel camera phones.

Auto-focus locks in less than one second and there are no delays when taking one photo to the next. With one touch, users can view all their photos right from the home screen; no menus, no searching. ZN5 is optimized to work with KODAK EASYSHARE Software and provide one-touch access to KODAK Gallery¹ or other Web sharing sites², by using ShoZu¹ to easily move pictures off the device, allowing consumers to print, share and enjoy their photos whenever they want. Share images with Edge or Wi-Fi connectivity^{1,3} via Web sites directly from the device² and display instant slideshows on your TV⁴ to friends and family with just one cable. Printing photos via Bluetooth® Wireless Technology⁵ is easy with KODAK Picture Kiosks and KODAK All-in-One Printers.

Tell us All About it

In phone mode, ZN5 features Motorola's proprietary CrystalTalk™ Technology to help users hear and be heard, even in noisy environments. Stereo Bluetooth wireless technology enables pairing with compatible Bluetooth-enabled accessories, such as Motorola's stereo Bluetooth-enabled headsets as well as Bluetooth-enabled KODAK All-In-One inkjet printers⁵.

MOTOZINE ZN5	
Dimensions	50.5mm (W) x 118mm (L) x 12mm (T) (16mm at camera lens)
Talk/Standby Time	Up to 349 to 574 minutes ⁹ /Up to 310 to 579 hours ⁹
Weight	114g
Battery	950mAh
Bands/Modes	GSM 850/900/1800/1900, EDGE Class 12, GPRS Class 12
Display	2.4" 240x320 262k TFT
Memory	Up to 350MB available memory ⁶ , optional removable 4GB ⁷ microSD card

	• TV out⁵
Connectivity	• AutoPairing with Motorola/Kodak Bluetooth-enabled accessories, Stereo Bluetooth Class 2 wireless technology¹, High-Speed USB 2.0, Mobile Phone Tools³ and compatible Kodak Bluetooth-enabled accessories including Kodak EasyShare printers

For more information regarding pricing and product availability in your region, please contact your local Motorola representative.

Certain mobile phone features are dependent on the capabilities and settings of your service provider's network. Additionally, certain features may not be activated by your service provider, and/or their network settings may limit the feature's functionality. Always contact your service provider about feature availability and functionality. All features, functionality and other product specifications are based upon the latest available information and are believed to be accurate; however such product specifications are subject to change without notice or obligation.

¹ Feature not available in all regions

² Network and/or SIM card dependent feature, not available in all areas. Airtime, data charges, and/or additional charges may apply.

³ Operates in many major cities and countries where GSM network coverage and roaming agreements are present

⁴ Compatible with NTSC and PAL television formats

⁵ This device supports Bluetooth A2DP and AVRCP profiles. In order for Bluetooth devices to communicate with one another, they must utilize the same Bluetooth profile. To determine the profiles supported by other Motorola devices, visit www.hellomoto.com/bluetooth. For other devices, contact their respective manufacturer. Certain Bluetooth features including those listed may not be supported by all compatible Bluetooth-enabled devices, and/or the functionality of such features may be limited in certain devices, or by certain wireless carriers. Contact your wireless carrier about feature availability and functionality.

⁶ Available user memory varies due to the configuration of the phone, which varies by service provider. 1GB = 1 billion bytes; actual usable memory after formatting is less

⁷ 1GB = 1 billion bytes; actual usable memory after formatting is less

⁸ All talk and standby times are quoted in Digital Mode, and are approximate. Battery performance depends on network configuration, signal strength, operating temperature, features selected, and voice, data and other application usage patterns.
