General

According to the change of GX-T17 board units, its firmware(software) has been also changed. Please perform services according to the following information.

1) Effecton: from May 2006 production

2) Compatibility with Board units and SPST

Board unit	Firmware(software)	Operation
Current	current	
	new	
New	current	×
	new	

3) New Firmware(software)

Destination	Software version
Taiwan	A03-011-0073-GX-T17

4) How to distinguish new board units from current board units

Point where a moisture sensor attached should be different for new ones and current ones.  
Parts code of the board units remain unchanged.

Notice) Board units include keyboards and it is compatible with one another on a unit basis ,  
so you are not allowed to exchange only boards or keyboards between old and new board  
units.
